Among the cases before the Police Court this morning was that of J. M. Dickerson, who was charged by Thomas Nugent, Joseph Armstrong and Peter Young, residents of Pitt street, between King and Prince, of violating a city ordinance by repairing vehicles in the street. Dickerson is engaged in repairing automobiles. The complainants alleged that this occupation is an annoyance to them. Dickerson was fined five dollars, from which judgment he took an appeal to the Corporation Court. Some time ago the accused was brought before the Police Court, at the instance of Messrs. Nugent and Armstrong, to answer a similar charge. He was on that occasion fined \$5, from which decision he took an appeal. The upper court declared him not guilty.

CONFEDERATE REUNIONS

These Going to Houston to Get Rate of One Cent a Mile

Many Alexandrians have planned to attend the annual meeting of the Virginia division, United Confederate Veterans, which will be held in Culpeper August 10 at 3 p. m.

This meeting will be held in connection with the meeting of the Grand Camp of Virginia which meets in annual session on the above date and which though composed of the same camps is an entirely separate organization.

The major general commanding announces that the railroad have granted fare of two cents per mile for the state meeting and one cent a mile for the reunion at Houston. Certificates upon which to purchase these reduced rate tickets will be furnished to the adjutants or commanders of camps for distribution. Adjutant Edgar Warfield, of Lee Camp, this city, can furnish the required blanks to those going to Texas.

Jump Steady Explodes

Fredericksburg Strangers Lose \$24 in Effort to Get Something With Kick

For selling two bottles alleged to have been filled with wood alcohol and brown sugar a young white man was in the police court today, sentenced by Justice Thompson to serve 90 days in jail. The accused through his attorney, Charles Henry Smith, noted an appeal to the corporation court and W. W. Simpson furnished a bail bond in the sum of \$1,000 as surety.

It was alleged by Chief Goods and Policeman Durrer that the concoction was sold to two Fredericksburg men June 20 who came here in an automobile and when they opened the bottle while near Accotink an explosion followed. Being afraid they might explode if they tried contests of bottle No. 2 they went to Fredericksburg and it is alleged a chemist after making an analysis of the contents declared it contained wood alcohol and brown sugar.

Policeman Durrer went to Fredericksburg yesterday and procured a bottle containing the fluid. The accused positively denies the charge.

DIES ON TRAIN

Michael W. Hester, a farmer of Easley, S. C., died on a railroad train at Alexandria, Va., this morning, as the result of a dog bite, which he received near his home a month ago. He was on his way to Johns Hopkins Hospital, Baltimore, for treatment when his death occurred.

Hester was accompanied by his wife and son Morris, who had only recently induced him to go to the hospital for treatment, after physicians at his home failed to give relief. Everything possible was done to make him comfortable during the trip, and he seemed to be doing well until soon after awaking this morning. Just as the train pulled into the station he breathed his last.

The body was brought to Washington and Coroner Nevitt was notified. Arrangements are being made to take the body back to South Carolina for interment.

INJURED IN AUTO SMASH

The condition of Mrs. Olive Seilenberger, who was injured in a collision between a motorcycle and an automobile at the corner of King and Columbus streets last evening, is reported favorable by Alexandria Hospital attendants today.

Mrs. Seilenberger was seated in the side car of a motorcycle which was being driven by her son, Paul Seilenberger, when it crashed into an automobile driven by F. C. Goodnow. Mrs. Seilenberger was badly bruised about the body and her left arm was broken. She was conveyed to the Alexandria Hospital where Dr. H. A. Latane attended her.

Police summoned Seilenberger and Goodnow to the police court, where, after an investigation, it was shown that Goodnow was not at fault. Justice Thompson dismissed Seilenberger, it being deemed he had suffered enough.

ROAD COMMITTEE PLANS LEE HIGHWAY

Movement Indorsed by Board of Supervisors of Fairfax

COMMITTEE IS NAMED

Construction of Little River Turnpike Part From Alexandria to Fairfax Court House Urged.

On Tuesday evening the Good Roads

Committee of the Chamber of Commerce met in the club room of that organization and had as its guests Senator S. L. Lupton, of Winchester, Va., formerly President of the Virginia Good Roads Association and a recognized leader in the movement to secure early improvement of State Highways; Dr. S. M. Johnson, the general director of the Lee Highway Association, an association which has been formed to promote the construction and maintenance of a great national highway from New York to New Orleans and on to San Francisco, also R. R. Turner, of Fauquier county.

Mr. Frank Ballenger, president, and Geo. E. Harrison, of the Fairfax County Board of Supervisors, the ways and means for financing the early construction of that link of the Lee Highway extending from Alexandria to Winchester, were discussed and a committee was appointed to attend the meeting of the Board of Supervisors of Fairfax County on yesterday.

The guests of the Chamber of Commerce motored with the committee to Fairfax courthouse and attended a most earnest and interesting meeting of the board of supervisors. At this meeting the following resolution was unanimously adopted:

Be it resolved, that the undersigned board of Fairfax County, Virginia, this seventh day of July 1920, unanimously endorse the adoption of the Little River Turnpike from Alexandria to Winchester as a vital link in the great Robert E. Lee Memorial, running from New York by the way of Washington, Alexandria, Winchester and other points South connecting with the Lincoln Highway in San Francisco as a transcontinental thoroughfare and as a matter of economy of transportation, and whereas, this highway is of vital interest to Fairfax County, as well as the enhancement in valuation of all property in the county, we, as a progressive Board, want to go on record as promising to do everything that is legal and in our power to finance the construction of this link by trying to raise money to advance to the State Highway Commission for its construction without interest to the State with the understanding that said money advanced to the commission be returned without a period not exceeding four years, therefore, we this day resolve ourselves into a committee to make a strenuous crusade to finance this wonderful undertaking or project and that each member of this board or committee canvass his district and get the sense of his constituency as to the best course to pursue and to report at our semi-annual meeting, July 26, 1920, as this work to be a success must be done quickly.

To secure the early construction of that link of the Lee Highway known as the Little River Turnpike and extending from Alexandria to Fairfax Courthouse, thence to Winchester, the Chamber of Commerce has appointed a committee to co-operate with similar committees from the following counties, Frederick, Clark, Loudoun, Fauquier and Fairfax.

RUSSIAN TRADE

Business Men Can Now Deal With Country But at Own Risk

The United States Government, acting independently of the allied governments, yesterday removed all restrictions on trade with Russia, thereby enabling American capitalists and manufacturers to enter, at their own risk, into commercial dealings with any part of the Russian population, whether under Bolshevik domination or not.

The action of the United States Government is qualified by the two following important particulars:

First, political recognition, present or future, of any Russian authority exercising or claiming to exercise governmental functions, is neither granted nor implied by this action.

Second, restrictions that pertain to the shipment of materials susceptible of immediate use for war purposes will be maintained.

ALLIES PRESENT ULTIMATUM

Spa, Belgium, July 8.—Unless the German delegates give unequivocal assurances that disarmament, in accordance with the treaty terms, will begin immediately, the Allies will discontinue negotiations, it is learned from a reliable source, as both sides held informal conferences preliminary to reconvening of the conference.

Although Chancellor Fehrenbach declared the situation was serious as a result of the virtual ultimatum of the Allies he was optimistic.

"Negotiations thus far have been very difficult," he said, "but I believe the Allies will make necessary concessions in order that Germany's internal order can be maintained."

The Allied dictum on disarmament has served to clear the air here, making continuance of negotiations contingent upon the Germans agreeing to disarm.

Saturday's Regatta

Richmond Club to Have Try Out Tomorrow Afternoon

With favorable weather, Saturday's regatta will be the most successful affair of the kind ever staged in Alexandria.

GIRL WATCHES LYNCHING

Witnesses Assault as Mob Riddled Swinging Body With Bullets

Danville, Va., July 8.—A grim mob of tobacco farmers stormed the jail at Roxboro, near here, early yesterday morning, cut the locks with an acetylene torch, dragged out "Red" Roach, a 25 year old negro charged with attacking a young white girl and lynched him on a tree in a nearby negro churchyard. His alleged near victim watched the lynching and identified the negro as he swung strangling in the air, while the mob riddled his body with bullets.

The attempted assault took place twelve hours earlier, when Roach was said to have attacked a young daughter of Edward Chambers, a well to do tobacco farmer of Appomattox county, N. C., in an orchard.

The girl's screams brought help and the negro fled, boarding a Norfolk and Western train at Helena, Va. A telephone message to Roxboro resulted in his arrest when the train reached that town and he was placed in jail.

Later a mob broke into the jail and seized the prisoner. A rope was swung over the limb of one of the churchyard trees. It was too short, so a chain was attached and fastened about Roach's neck.

NATION'S LIVING COST

Approximately nine billion six hundred thousand dollars will be added to the nation's living costs for the year beginning with September, J. E. Weatherly, economic expert of the justice department, predicts. Weatherly says he based this prediction on the belief the interstate commerce commission would be forced to increase freight rates approximately two billion dollars. An appeal for increases totaling one billion dollars now is being considered by the commission at the request of the railroad managers. Another billion must be added when the railroad board grants proposed wage increases to two million workers, Weatherly says he assumes.

"Increased freight rates are reflected in living costs, not in straight proportion but magnified about 4.8," said Weatherly. "This is because the public pays a freight rate increase several times instead of just once. One increased rate is paid when the cattle go from the plains where they grazed to the slaughter house. The second increase is paid when the raw hides are shipped from slaughter houses to tannery, a third from tannery to shoe manufacturing houses and a fourth when the finished shoes come from the manufacturer to dealer.

"Shoes also show a magnification of the rate increase four times. I commodity, however, the increase is magnified only three times. There is another factor. The increased freight rate paid by each dealer or manufacturer is added to his cost of operation, on which he figures his profits on a percentage basis.

"There seems no getting around the fact that a freight rate increase means a tremendous boost in prices of every commodity produced in the United States. Every person in the United States is bound to feel the increase. It means a tax of about \$36 a year for each of the one hundred million persons in the United States."

VAST FARM ARMY

Land army of 100,000 farm hands is moving northward across the western wheat belt harvesting the nation's grain crop in better time than in many years, reports to the agricultural department showed today. The land army was recruited and organized by agricultural department officials working with chambers of commerce and farmers' organizations in the west.

Attracted by a wage of \$7 for a ten hour day thousands of workers hastened from the Atlantic and Alleghany regions to the states west of the Mississippi to join the harvest drive. "For the first time in years farmers there are not handicapped for want of help," said Director Taggart, of the bureau of farm management, here today.

"Kansas City telegraphed us asking that no more workers be sent west unless called for. This makes the harvest outlook the best in years so far as quick handling of the crop is concerned."

SUMMER FATALITIES

The tragedies of the summer season have already begun, in this city and elsewhere, in drownings and water accidents due to familiar disregard of obvious dangers. Persons who cannot swim venture into deep streams and ponds, and swimmers while overheated plunge in and invite a fatal attack of cramps. There are still with us, too, the people who think it a joke to rock a rowboat and frighten nervous fellow passengers, and the man who dives in shallow waters and breaks his neck or injures his spine by contact with the bottom.

These experiences are repeated year after year, but they are apparently never remembered from one season to another. Is it a midsummer madness that causes people to ignore the simplest dictates of common sense, or is there a grim des-

tiny in these as well as other fatalities? It may be of the latter kind, a sense of duty impels us to say that water in certain circumstances is more deadly than fire and kills more more quickly than either do, even in the case of prohibition violation, it seems that water in large quantities is an entirely friendly element. None of our clothes is a heavy limb at all, and powerfully warm, but if you cannot swim, be sure the water is not deep before you fool with it. (Baltimore Sun.)

The Brooklyn-Curtis Bay Water and Power Company, of Baltimore, has made application to raise their rates from \$4.50 per quarter to \$9. The company raised its rates about a year ago. The average water consumer in Washington pays about as much annually as subscribers in Baltimore and Alexandria pay quarterly.

Dover, Del., is an ideal city. The Town Council met in monthly session Tuesday evening and received the reports of the officers, which showed six arrests during the month of June and fines collected amounting to \$27.

Strikes and lockouts in 1919 affected more than 4,110,000 persons and were 3,258 in number, according to figures compiled by the Department of Labor. The number of strikes is slightly below the number reported for the three preceding years, but in the number of people involved the walkouts in 1919 have been more extensive than any in the industrial history of the United States. Until last year no strike in this country for four years had involved more than 60,000 persons.

According to Eusebius, one of the church fathers, Constantine I., while upon his death bed, told him that preceding a battle he saw a cross in the sky with the following words under it: "In hoc signo vinces." (In this sign conquer.)

At the launching of the steel battleship Livingstone at the plant of the Virginia Shipbuilding Corporation recently a photographer took pictures of the vessel as it was being lowered into the Potomac. These pictures portray a cross in the sky, which is unaccountable. These prints are being shown to the curious in Alexandria.

HANGS HEAD DOWN

One generation Run Awol: Experiences Trying to Climb Fence

Louisville, July 8.—Unable to see his foot, which had become caught near the top of a fence, he was trying to climb, J. M. Alstott, 80 years old, lay for hours during which he fell almost constantly. He was found near New Albany, 20 miles west of New Albany, having been trapped in such a manner that his head and shoulders barely reached the ground. His condition is serious. Mr. Alstott started from the home of his daughter to visit his son, a mile away.

In climbing a fence Mr. Alstott's foot became wedged in a small opening near the top. He fell backward because of his age he was unable to help himself. The telephone in his daughter's home was out of order and she did not know for two days that her father had failed to reach his destination. A search was started immediately. When found Mr. Alstott was exhausted.

U. S. MARINES GO IN
FOR NEW DECORATIONS

Washington, D. C. July 8.—The terms decoration and Marine Corps became almost synonymous in the course of the world war. Alone of all the military services the sea soldiers still cling to yellow chevrons, red trouser stripes and their blues. But down in Quantico, Va., the Marines serving under the command of Brig. Gen. Smedley D. Butler have turned their backs on such frivolities as war decorations and dress frivolities.

Interior decorations has been added to four-score courses now offered to the Marines by the Marine Corps Institute, the practical school designed to prepare the sea soldiers for position in civil life when their two year "hitch" expires.

The course of interior decoration designing, to give it its correct title, is now being taught to them either in the schoolrooms on Quantico's pine clad hillside or by correspondence that reaches them at sea or in the tropic garrisons.

TO DIVIDE MILLIONS

Wealthy Men, American and Foreign, Profit by Settlement

Richmond, July 8.—Special Master Robert E. Scott, to whom Judge Scott, of the city circuit court, referred the matter of hearing the claimants in the West Virginia debt settlement case, has returned from New York. The special master has practically completed his report and

may submit it to the court any day. Upon this report and the recommendations of the commissioner the court will determine the merits of the claims. The time set for the formal hearing by the court is July 21.

It is confidently expected that the report will recommend compensation for each member of the debt commission of not less than \$50,000 for services rendered while serving as a

member of that commission, which was appointed by the general assembly. The clerk of the commission, Colonel Joseph Button, state insurance commissioner, is believed to be classed with the \$50,000 claimants and to have been allowed that amount by the special master.

Former Attorney General Anderson, according to report, is to receive from one hundred thousand dollars to one hundred and fifty

thousand dollars for his services. One or more members of the commission, it is understood, will be slated for a larger slice of the pie than the rest of the commission, the additional compensation being in consideration of extraordinary services rendered. The state of Virginia will get a comparatively insignificant share in the distribution of the cash and bonds in bank, amounting to about thirteen million dollars, the bonds being in the hands of bankers and foreign bondholders, who purchased them many years ago. In certain instances the bonds were bought by foreigners as low as ten cents on the dollar. The beneficiaries are chiefly wealthy men.

HEAVY DEFALCATION

Manager of Lipton Company Uses \$70,000 of Employer's Money

Chicago, Ill., July 8.—Charles E. Thomas Lipton, church member and good husband and for the past ten years district sales manager of the Lipton Tea Company in Chicago, admitted defalcations of more than \$70,000 last week to State Attorney McClay Hoyne.

Briefly confessed to State's Attorney Hoyne that he spent every cent of the money embezzled from the company speculating. He said in part:

"I made my first plunge three years ago just after the war. The market was with the bears. I didn't even know what that meant at the time. I had \$700 in a fund. I didn't know what a margin meant and next day they tried to tell me when I went down and found that my \$700 was gone, but I didn't understand."

"Then I took funds from the firm. It was oil mostly, then mines, then more oil. I lost always. I lost so much that I never kept track of how much I embezzled."

Briefly disappeared from his office two weeks ago. Meanwhile the New York headquarters of the company had instituted a secret Nation wide search for him. He walked into the New York office unexpectedly and made a clean breast of his speculations to Attorney Cooper, of the New York Lipton Tea Company office.

In his cell he was asked: "Do you think your wife will leave you?"

"Not she," he shook his head. "She's not that kind, but who would have a better right?" he asked.

Note

Safeguarding the Investor

Number Three of a Series

Safeguarding the principal and income of his clients is but one of the important duties of the Investment Banker. His aid in selecting investments suitable for individual requirements is another extremely valuable service.

In these days of high taxes, both State and Federal, with constantly changing tax laws, the amount and source of your income are important considerations in the selection of your investments.

In many instances it is advisable to invest a portion of the income in non-taxable securities. Then, at times, it is preferable to invest at a higher yield in taxable securities and still show increased income even after paying the taxes. This is a technical problem that can best be solved by a frank discussion between the investor and his banker.

There is also the question of marketability. The Investment Banker may feel that he should advise a client who, because of the nature of his business may require large sums unexpectedly, to invest in securities which have a ready market. Where this is not of importance, an investor may obtain other advantages which more than offset those of an active and ready market.

Again there is the question of maturity. The investor may desire the return of his principal at a given time. The Investment Banker is usually able to suggest an offering which will meet this requirement.

If you will confer frankly and fully with your Investment Banker a very effective service can be secured.

WILL JOIN IN CAMPAIGN

Possibility of Wilson Taking Stamp, if Health Permits, White House Indicates

Washington, July 8.—Definite assurances were given at the White House yesterday that President Wilson plans to take an active part in the campaign to elect Governor Cox as his successor.

It was indicated that if his health permits the President will make some stump speeches for the Ohioan, but otherwise will use all his influence as head of the party to win a Democratic victory in November. An early conference between Wilson and Cox probably will be arranged, it was learned.

The Ohio Governor is said by Democrats here to be one of the best campaigners in the country and the prediction was made that he would make an unusually vigorous campaign, probably with an extended tour.

HANGS ASSAILANT OF GIRL

Negro Taken From North Carolina Jail Identified by Victim And Her Sister

Durham, N. C., July 8.—Ed Roach, a young negro, was taken from the county jail at Roxboro, near here, early yesterday morning and hanged to a tree by an enraged mob. The negro was identified by a 14 year old white girl of a prominent family, and her sister, as the negro who attempted to assault the former late Tuesday afternoon, in the absence of the parents.

The cries of the girl brought her sister and the negro fled, boarding a train for Roxboro. He was taken from the train at that place and placed in jail.

Absolute quiet throughout the night threw the Sheriff off his guard, and the mob, coming at 4:30 o'clock in the morning, encountered no resistance.

They Come Clean

It's not only the cleanliness and care which we devote to your clothes that make our helpfulness to you so important. It is also the removal of the burden of wash days—the lightening of your work and worry and the solving of the problem of keeping contented and competent maids.

A SENSIBLE INVESTMENT

The most sensible way to invest your money is to keep your property in good condition and to have a home which will make your family comfortable and other buildings which will properly house your belongings.

You get the direct benefit from money invested in this way from day to day, in addition to the actual increase in the value of your property.

There have been some reductions in the price of lumber by the mills and we are reducing our prices to meet these, regardless of the cost of the different items we have in stock.

MOVIES

RICHMOND THEATRE

For "The Life Line" we have come to expect something spectacularly different from the ordinary run of feature motion pictures. Such successes as "The White Heather" and "Sporting Life" demonstrated his peculiar genius in transferring to the screen the thrilling action of the best of the Drury Lane melodramas. He has done a similar work with "The Life Line," his latest Paramount-Artcraft picture, which will be seen at the Richmond Theatre today. The story was adapted from the famous English stage production, "The Roman Rye," by George R. Sims.

INGOMAR THEATRE

What is described as the most amazing photoplay of the year is coming to the Ingomar Theatre tonight. In "A Sister to Salome,"

William Fox offers the public a powerful story of a fascinating diva whose great love serves as the basis for a drama full of suspense and surprise.

Gladys Brockwell will be seen in the title role—a part peculiarly suited to her great talents and which she is said to surpass even her own enviable record.

The story as outlined in advance reports is different from anything heretofore seen on the silver sheet.

SHEER, LOVELY VOILES

That the Breezes Ripple Into Changeful Designs and Colorings as Fold Laps Against Fold
48c and 58c a yard

It is a delight to look at the hundreds of different figured voiles fluttering and swaying in the breeze from the cooling electric fans and imagine just how really cool and satisfactory several frocks of this pretty material would be.

In the lower-priced line there are a great many very dainty small figured effects in medium tones, some very closely covered grounds, others with wider spaced designs.

The higher-priced lot is chiefly made up of entirely new patterns never shown here before this sale, and the greater number of them were manufactured to sell at \$1.00 a yard.

There never was a season when the styles seemed to more gracefully adapt themselves to printed voiles than this year.
